Attn: Commissions Docket Control

Dear Sirs

We are the owners of a house at 913 Swan St. Parker, AZ 85344 in the Hillcrest Bay subdivision. We purchased lot number 064A lot and developed it. We have lived there for approximately 4 years.

We write this letter in support of the current proposed project to place utilities underground. Besides the obvious aesthetic improvements, we are convinced that underground utilities will allow for more reliable power and telephone service. We have supported the proposed project from the beginning and still support it now.

We urge you to pass all the necessary procedures to allow for this project to start as soon as possible.
